They've Got No Right to Close Our Parks

We, the undersigned Citizens of the State of New Jersey, call upon the NJ State Legislature and Governor Corzine to restore the $9 million cut from the State Parks budget. This cut will result in the closure of 9 State parks and the elimination of camping, swimming, fishing and children's programs at other State parks. New Jersey can't afford not to have its open space. These are the People's Parks! Keep them open and accessible to the public.
